SUMMARY

Data Engineer with hands-on experience building scalable ETL pipelines, orchestrating workflows with Apache Airflow, and designing data models in Snowflake and dbt. Proven track record of automating data ingestion using Python and SQL to ensure data quality and support business analytics. Seeking to leverage my technical expertise in a full-time Data Engineering role.

SKILLS

Python (Pandas, NumPy, FastAPI), SQL (MySQL), Data Engineering (ETL / ELT, Medallion Architecture), Apache Airflow, dbt, Snowflake, Data Pipelines & Modeling, Power BI, DAX, Git/GitHub, API Integrations, GenAI (RAG)

PROJECTS

Nexus AI Backend Ecosystem | *Python (FastAPI), SQL, REST APIs, Gemini*

- Engineered a Python & FastAPI REST API enabling NL2SQL capabilities to query and process data directly from SQL databases.
- Designed a RAG-based data retrieval pipeline to extract and serve real-time insights from internal documents.
- Integrated external APIs to automate data synchronization and lead ingestion, reducing manual operational tasks.

EXPERIENCE

Intern – CAIO Office | *Elad Software*

Jan 2026 – July 2026

- Designed and maintained 30+ dbt models within a Medallion Architecture (Bronze, Silver, Gold), implementing data quality validation checks and ensuring reliable data transformations.
- Managed and monitored 5 Apache Airflow DAGs for automated Python web scraping and ETL data ingestion pipelines into Snowflake.
- Prototyped embedded analytics dashboards using Power BI and DAX to analyze Instagram performance metrics and support business insights.
- Built React-based executive dashboards connected to Snowflake, delivering real-time analytics for C-level stakeholders.

Founder & Digital Community Manager | *Self-Employed*

Aug 2021 – Present

- Built and managed a massive digital community of 75,000+ followers in the personal development space across multiple social platforms.
- Automated daily content production and community management workflows by integrating Generative AI tools.
- Streamlined lead generation and audience monetization by routing user interactions into CRM systems for efficient tracking.

EDUCATION

Bar-Ilan University

2023 – 2026

B.A. Dual-Degree in Information Science & Communication (GPA: 97.05) | Product Management Program (GPA: 98.0)

LANGUAGES

Hebrew (native), English (fluent), Russian (native)
