SUMMARY

Final-year Data & Product Management student with a dual-degree in Information Science & Communication. Proven ability to merge **data-driven insights** with strategic execution, leveraging **4+ years** in community building and content strategy. Experienced in **end-to-end data projects**, **defining product requirements (PRDs)**, and translating **user research** into technical solutions. Passionate about bridging R&D logic and user engagement to deliver **measurable impact**. Seeking to leverage my technical background and strategic thinking in a Product Management role, focusing on driving execution and delivering **measurable impact**.

EXPERIENCE

Digital Content Creator & Community Manager · Self-Employed

Aug 2021 – Present

- **Spearheaded** the end-to-end growth of a digital community, scaling the user base to over **75,000 highly engaged followers** across multiple social platforms.
- **Analyzed** audience engagement metrics and platform analytics to conduct **A/B testing** on content formats, continuously **optimizing reach, retention, and user satisfaction**.
- **Facilitated 1-on-1 user interviews** and coaching sessions, extracting **qualitative insights** to identify core user pain points and tailor strategic value propositions.

PR Specialist & Researcher · Maya Karvat Communications & Content

Nov 2024 – Mar 2026

- **Performed in-depth qualitative research** and client interviews to define brand messaging, translating core business values into comprehensive communication strategies for **15+ leading culinary brands**.
- **Orchestrated cross-functional media operations**, coordinating filming days and collaborating with journalists to synthesize complex information into clear, compelling narratives.
- **Facilitated ongoing client meetings and stakeholder alignments**, ensuring seamless execution of end-to-end PR plans and maximizing market visibility.

Creative Lead & Content Strategist · Alfi Productions

May 2023 – May 2024

- **Directed cross-platform creative strategies**, translating client requirements into engaging visual narratives.
- **Collaborated with cross-functional teams** to align content production with strategic business goals, ensuring high user engagement and brand consistency.
- **Coordinated project executing 20+ projects** from concept to delivery, managing task priorities and ensuring brand consistency across all platforms.

- **Commanded tank crews and combat personnel** during regular service, overseeing operational readiness, team discipline, and personnel management.
- **Directed company-level logistics and field operations**, coordinating with external suppliers, orchestrating complex field deployments, and managing **large-scale resource allocation**.
- **Mobilized for active reserve duty** (Tzav 8) during the "Iron Swords" War (2023 – 2024), demonstrating **resilience, rapid decision-making, and real-time problem-solving** in high-risk combat environments.

EDUCATION

B.A. Dual-Degree in Information Science & Communication · Bar-Ilan University

2023 – 2026

GPA: 97.05

- Fellow: Product Management Program BIU | GPA: **98**
- Relevant Coursework: Product Management, Data Analysis, Human-Computer Interaction (HCI), User Experience (UX)
- Research, Information Retrieval, Digital Strategy, Consumer Behavior, Database Management.

SKILLS

Product Management: PRD Writing, User Research (Thematic Analysis), Agile Methodologies, UX/UI Principles, User Personas, Benchmark Analysis, Jira, Task Management

Data & Analytics: Data Modeling, ETL, A/B Testing, Data Visualization, Data-Driven Decision Making, Power BI

Languages: SQL, Python, DAX, C#, JavaScript, HTML/CSS

Tools & Platforms: Power BI, Figma, Jira, MySQL, Base44

PROJECTS

End-to-End Instagram Analytics Pipeline

- **Managed the full project lifecycle using Jira**, from defining technical requirements to tracking task execution and timelines across data, back-end, and front-end workflows.
- **Engineered an automated ETL pipeline** and interactive Power BI dashboards to analyze multi-dimensional trends, enabling **real-time status updates and stakeholder self-service**.
- **Architected a full-stack solution** (Python/FastAPI, React UX/UI) integrated with **Gemini AI**, bridging raw data extraction with natural-language user insights.

Market Research & Competitor Analysis (Freelance for "Elad")

- **Led comprehensive competitor research**, including comparative Benchmarking, UX/UI mapping, and identifying the core Value Proposition of competing platforms in the market.
- **Integrated AI technologies** to streamline and automate qualitative and quantitative research, including data extraction from complex reports and rapid, accurate user sentiment analysis.
- **Delivered a strategic insights report to management**, featuring a complete competitor matrix, SWOT analysis, and data-driven operational recommendations for **Feature Prioritization**.

Smartrip – Travel Planning Application Prototype

- **Led product definition and development** of a functional prototype for a smart travel planning application, utilizing the Base44 development environment.
- **Executed in-depth user research** to understand key friction points in multi-participant travel planning, translating insights into clear, actionable product requirements.
- **Designed a goal-oriented User Experience (UX)**, emphasizing a smart data structure that enables seamless itinerary creation with **zero-friction onboarding**.
